

## **FORMAT OF PRESENTATION Nomadic Circus VR (theaters / exhibition halls)**

**BUILT UP** : 3 hours

**BUILT DOWN** : 2 hours

Presence of one technician of the structure (built up 3 hours & built down 2 hours)

### **GENERAL INFORMATIONS**

The experience is adaptable according to the performance venue ; both in its time of installation ( scenography, light design) and audience capacity . We receive between 10 to 20 people every 45 minutes. The performance is ongoing and we present up to 8 times a day. (possibility of add supplementaire sessions (up to 12 per day for an additional price).

*We kindly ask the organiser to send us pictures and exact dimensions of the performance venue minimum 1 month in advance to facilitate the installation process.*

### **STAGE INFORMATIONS**

- Ideally a flat, leveled floor
- Indoors (room / studio), in a low light and preferably quiet space or possibility to create a feeling of "black box".

Stage dimensions required :

For an audience of 10 : 6m x 6m

For an audience of 15 : 7m x7m

For an audience of 20 : 8m x 8 m
